

Maternal and Child Health (MCH) MOMS Helpline

Dear Provider:

The Maternal and Child Health (MCH) MOMS Helpline is a department within the Maternal and Child Health division with the Indiana State Department of Health. The mission of the MCH MOMS Helpline is to reduce the infant mortality rate in Indiana by providing statewide prenatal care information and referral services.

The goal of the MCH MOMS Helpline is to improve access to early and regular prenatal care by providing age bearing women with information and referral resources; as well as directing them to a network of prenatal and child health care services within their local communities, state agencies, and other organizations providing related health services.

We are in the process of entering new provider information in our statewide county specific database. Our purpose is to provide accurate information about your agency and sites to our callers within their community. To list your services in our database, we are requesting your assistance in filling out the attached Provider Profile form.

Please complete the enclosed report and return your updated information via fax: **(317) 234-6787** (attention: Gary Jones) or via e-mail to: gajones@isdh.in.gov or contact us at **1-844-624-6667** (1-844-MCH-MOMS), Monday through Friday 7:30am – 5pm. Thank you for your assistance. We look forward to hearing back from you.

Sincerely,

Gary Jones
